

Announcing the Jackson Corvette Club Key Ring

In honor of our 50th Anniversary, the Club is offering JCC key rings shown below. All key rings are cast in solid brass approximately 1 ⁵/₈" x 1 ³/₄" in size and 2 mm thick. After casting and plating the epoxy color is applied and baked on, then the entire ring is sealed. They come with a chain and ring attached to the eye.

Three finishes are available:

Nickel: Entire ring is nickel plate + epoxy colors. \$11 each

Gold: Entire ring is 24k gold plate + epoxy colors. \$12 each

Two-Tone: Raised outlines are gold plate, remainder is nickel plate + epoxy colors. \$14 each

There is a one time \$100 tooling fee with our first order, which must be for a minimum of 25 pieces. JCC will pay for the tooling costs. In the future, orders can be made in quantities of 10 or more key rings with no additional tooling fee.

\$11 each

\$12 each

\$14 each

If you are interested in buying one (or more) of these key rings, please fill out the order form below and give it, along with your check made out to the Jackson Corvette Club, to Gary Schauffler at one of the meetings or mail it to the Club at P.O. Box 6363, Jackson, MI 49204 by August 4, 2010.
